1.	EXECUTIVE SUMMARY
1.1	To present, for approval, the ADP Annual Reporting Survey for 2022/2023 detailing a range of information to the Scottish Government on a range of aspects relating to the delivery of the National Mission.
2.	BACKGROUND
2.1	This year the report provides high level information on the range of substance misuse support available in North Ayrshire.
3.	PROPOSALS
3.1	List the specific actions that need to be considered and approved: It is requested that IJB consider and sign off the responses to the survey before submission to the Scottish Government on the 27 th of June 2023.
3.2	<u>Anticipated Outcomes</u> The survey provides a broad overview of the work of the ADP and does not reflect the totality of the work covered by the ADP, NADARS and wider partners.
3.3	<u>Measuring Impact</u>

	The data will help understand the challenges and opportunities with the findings informing the monitoring of the National Mission, the work of national subgroups focused on topics such like the Whole Family Approach and Residential Rehabilitation.
4.	IMPLICATIONS
4.1	<u>Financial</u> None.
4.2	<u>Human Resources</u> None
4.3	<u>Legal</u> None.
4.4	<u>Equality/Socio-Economic</u> Add information on the equality/socio-economic implications of the proposals or "None".
4.5	<u>Risk</u> The survey details responses mainly focuses on support available to people in North Ayrshire so carries a 'low' risk rating.
4.6	<u>Community Wealth Building</u> Details within the responses raise awareness of the impact of alcohol and drugs and the work of the HSCP, ADP and partner agencies to reduce alcohol and drug related harms.
4.7	<u>Key Priorities</u> The survey has helped the ADP identify areas of strength and areas of opportunity and development. This will be considered when developing the next ADP strategic plan and associated action plans.
5.	CONSULTATION
	A core group of individuals involved with the ADP contributed to the survey responses.

Alcohol and Drug Partnership (ADP) Annual Reporting Survey: 2022/23

This survey is designed to collect information from all ADPs across Scotland on a range of aspects relating to the delivery of the National Mission **during the financial year 2022/23**. This will not reflect the totality of your work but will cover those areas where you do not already report progress nationally through other means.

The survey is primarily composed of single option and multiple-choice questions, but we want to emphasise that the options provided are for ease of completion and it is not expected that every ADP will have all of these in place. We have also included open text questions where you can share more detail.

We do not expect you to go out to services in order to respond to questions relating to activities undertaken by them in your area. Where questions refer to service level activities, we are interested in the extent to which you are aware of these at an ADP level.

We are aware of some element of duplication with regards to questions relating to MAT Standards and services for children and young people. To mitigate this, we've reviewed the relevant questions in this survey and determined the ones that absolutely need to be included in order to evidence progress against the national mission in the long-term. While some of the data we are now asking for may appear to have been supplied through other means, this was not in a form that allows for consistently tracking change over time.

The data collected will be used to better understand the challenges and opportunities at the local level and the findings will be used to help inform the following:

- The monitoring of the National Mission;
- The work of a number of national groups including the Whole Family Approach Group, the Public Health Surveillance Group and the Residential Rehabilitation Working Group, amongst others; and
- The priority areas of work for national organisations which support local delivery.

The data will be analysed and findings will be published at an aggregate level as [Official Statistics](#) on the Scottish Government website. All data will be shared with Public Health Scotland to inform drug and alcohol policy monitoring and evaluation, and excerpts and/or summary data may be used in published reports. It should also be noted that the data provided will be available on request under freedom of information regulations and so we would encourage you to publish your return.

The deadline for returns is Tuesday 27th June 2023. Your submission should be signed off by the ADP and the IJB, with confirmation of this required at the end of the questionnaire. We are aware that there is variation in the timings of IJB meetings so please let us know if this will be an issue.

If you require clarification on any areas of the survey or would like any more information, please do not hesitate to get in touch by email at substanceuseanalyticalteam@gov.scot.

Q29b) Please describe what treatment and support is in place **specifically for children aged 0-4 (early years) and 5-12 (primary)** affected by **alcohol**.
[open text – maximum 2000 characters]

The Child and Adolescent Specialist Substance Team (CASST) offer's support to children aged 5-21 who are affected by either their parental/caregivers alcohol/substance use or their own. Within the 5 – 12 age group we support children within school and at home, depending on their preference. We work on child centred plans, drawing support from their wider support network. We contribute to CP meetings, core groups, school meetings etc and work collaboratively with both families and professionals involved within the careplan. Key outcomes we strive to achieve are: better understanding of circumstances, improved family relationships, better links with recovery services and general community groups etc. Our approach is underpinned by our knowledge of trauma and how this can manifest within behaviours and we regularly use this knowledge to support the children we work with to find their voice.

CASST's referrals come from across social services and we regularly receive referrals from our health partners via Service Access. This allows for strong partnership working whereby we regularly offer joint family sessions and inputs at groups. We undertake a flexible approach to working with our young people and our families and regularly refer into partner agencies.
