

**COUNCIL: 7 NOVEMBER 2018**

**RESPONSE TO SUPPLEMENTARY QUESTION**

Please find below the response to a supplementary question asked at the last Council meeting held on 7 November 2018:-

- (2) In respect of his question about support recycling, Councillor Billings asked, as a supplementary question, for information on the percentage of waste sent for recycling which was actually recycled.

Councillor Montgomerie responded by undertaking to provide the requested figure at a later date.

The requested information is as follows:-

"90.66% of the blue bin mixed recyclate that was sent for recycling during 2017/18 was recycled, with 8.91% being sent to energy recovery and only 0.43% of it being landfilled. All of the brown bin organic waste material (garden and food) that was sent for recycling during 2017/18 was recycled."
