NORTH AYRSHIRE COUNCIL

21 March 2023

	Cabinet
Title:	Strategic Risk Register 2023/24
Purpose:	To seek Cabinet approval of the Strategic Risk Register for 2023/24.
Recommendation:	That Cabinet approves the Council's Strategic Risk Register for 2023/24.

1. Executive Summary

- 1.1 The Strategic Risk Register has been reviewed and updated for 2023/24.
- 1.2 It is recommended that 7 of the 8 previous risks remain on the Strategic Risk Register at their existing risk scores and titles – Financial Environment, Inequalities, Cyber Security, Transformation, Climate Change, Financial Sustainability of the Health and Social Care Partnership, and Community Capacity Building & Empowerment.
- 1.3 A previous risk relating to the Operating Environment of the Council post-COVID has been removed from the register. This risk had previously been included to take account of the challenges of recovery and the uncertain operating environment. These risks are captured fully within other specific risks within the register which will lead to improved management of those risk mitigation actions.
- 1.4 A new strategic risk has been added relating to the implementation of the National Care Service, and the potential impact on the Council's resources.

2. Background

- 2.1 North Ayrshire Council is committed to ensuring that it is proactive in identifying and managing the risks impacting on the authority. The Council recognises that a certain amount of risk is inevitable if the organisation is to achieve its objectives.
- 2.2 The aim of risk management is to reduce the likelihood and/or impact of risk by identifying and controlling risks to the Council. If risk is to be managed appropriately, and Services are aware of these risks, risk management can contribute positively towards the organisation's decision-making processes, making the Council more innovative and effective in its approach to service delivery.

- 2.3 The most significant risks are identified through the Council's Strategic Risk Register, recognising the challenges facing the Council and demonstrating the arrangements in place to manage these risks.
- 2.4 The Strategic Risk Register has been reviewed and updated for 2023/24 and is attached at Appendix 1 to this report. For each of the risks detailed within the register a number of components are identified:
 - Risk proximity factors.
 - Risk score.
 - Potential effect on the Council's priorities.
 - Internal controls currently in place.
 - Assessment of controls, and
 - Additional actions identified.
- 2.5 To assist in the assessment of each risk, the Council's agreed risk matrix was used to ensure consistency. This is used to assess the likelihood of occurrence (on a scale from 1 to 5) and the significance of the impact of the risk should it occur (on a scale from 1 to 5). The risk score is the product of likelihood multiplied by impact. Only those risks rated as high or very high (10 or above) will feature on the SRR to ensure a focus on managing the most significant risks.
- 2.6 Seven risks remain on the Strategic Risk Register at their existing risk scores Financial Environment, Inequalities, Cyber Security, Financial Sustainability of the Health and Social Care Partnership, Transformation, Climate Change and Community Capacity Building and Empowerment.
- 2.7 An additional risk has been captured within the Strategic Risk Register around the implementation of the National Care Service. The risk reflects that this is one of the most significant reorganisations for local government since 1996, and there is uncertainty over the scope of the National Care Service which could result in tight timescales and significant resource pressures for implementation.
- 2.8 The risk included in the 2022/23 strategic risk register around the Operating Environment as the Council recovered from COVID-19 has now been removed. This reflected a number of challenging emerging risks at the time including recovery, living with COVID, inflationary impacts, cost of living, and supply chain/construction inflation. Risks which remain relevant for 2023/24 are still included within the register but captured within the specific risks relevant to these challenges, primarily Financial Environment.

2.9 Very High Risks

- **Financial Environment** this risk reflects the ongoing financial challenge faced by the Council (risk score 20).
- **Inequalities** this highlights the socio-economic inequalities faced in North Ayrshire (risk score 20).
- **National Care Service** this risk reflects the challenges and uncertainty the Council faces with a major reorganisation of one of its most significant and important functions (risk score 20).

<u>High Risks</u>

- **Cyber Security** this reflects the ongoing risk from external cyber-attack which is being faced by all organisations (risk score 16).
- **Transformation** this reflects the wider risks associated with delivering the current Transformation Programme and developing a pipeline of future initiatives (risk score 16).
- **Climate Change** this risk has been on the Strategic Risk Register following the declaration by the Council of a Climate Change Emergency during 2019 (risk score 16).
- **Financial Sustainability of the Health and Social Care Partnership** this reflects the ongoing financial challenges faced by the Partnership and the risk these present to the Council (risk score 12).
- **Community Capacity Building and Empowerment** this highlights the challenges associated with community empowerment (risk score 12).
- 2.10 Council services have identified high level strategic actions within their planning for 2023/24 to help the Council mitigate against its strategic risks. These actions are detailed in summary format in the Risk Management Action Plans following each Risk within Appendix 1. These actions will assist with performance monitoring and reporting on the strategic risks.
- 2.11 The Council's Internal Audit Plan 2023/24 is scheduled to be approved at the Audit and Scrutiny Committee on 28 March 2023 and is risk-based with clear links in place between the audit plan and key risks the Council faces.

3. Proposals

3.1 Cabinet is requested to approve the Strategic Risk Register 2023/24.

4. Implications/Socio-economic Duty

Financial

4.1 The Council continues to have a robust long- and medium-term financial planning framework. Key strands include development of key transformation themes and the establishment of an Investment Fund that will generate future savings alongside delivery of a number of key Council priorities.

Human Resources

4.2 None.

<u>Legal</u>

4.3 None.

Equality/Socio-economic

4.4 The risk to the Council is that North Ayrshire residents, and in particular certain groups, will experience increasing levels of poverty and its effects. Current control measures fall into two categories - measures to address the root causes of socioeconomic inequalities - income through employment or benefits – and mitigation measures to minimise the impacts of poverty.

Climate Change and Carbon

4.5 The Council has declared a climate change emergency and has in place an Environmental Sustainability and Climate Change Strategy. Significant work to help mitigate the risk of flooding is included within the Capital Plan. The Council is undertaking an ambitious renewable energy programme.

Key Priorities

4.6 A successful risk management framework helps to underpin the delivery of the Council's strategic priorities in the Council Plan 2019-2024.

Community Wealth Building

- 4.7 None.
- 5. Consultation
- 5.1 The Strategic Risk Register has been reviewed in consultation with the Executive Leadership Team and the Corporate Risk Management Group.

Mark Boyd Head of Service (Finance)

For further information please contact Laura Miller, Senior Manager (Audit, Fraud, Safety and Insurance), on 01294-324524.

Background Papers None.

he risk is that the level of funding from Scottish Government to local government will require the Council to take increasingly difficult and challenging decisions, otentially operating with increased levels of risk to nsure service delivery and investment in assets align with available resources. The 2023/24 local government ettlement represents an increase of 0.33% in core rant funding, this has to continue to be looked at within the context of financial pressures facing the council including pay, significant inflationary, contractual and emographic pressures over the short, medium and ong term. Additional challenges are being faced where Scottish Government is ringfencing increasing areas of the udget settlement, and this is further exacerbated by the folusion of some elements of the 2023/24 budget being onditional on certain criteria being met. The Budget gap for 2023/24 sits at £10.3m. The gap for 4/25 is estimated at £17m. The continuation of single ear settlements makes effective medium and long term nancial planning challenging. It is recommended that bollowing the settlement and within the wider financial ressure context, the risk score remains unchanged at his time. Any consideration to change this will only ccur following a sustained period of annual growth in ore revenue funding, however, this will also have to be onsidered within the context of inflation and the esultant cost pressures. The Council is exposed to financial risk as a result of nderlying cost pressures within the IJB; more detail on his is set out at risk SRR03.	Funding not demand and pressures me be a reduction areas potent higher risks for The future de budgets will increasingly	ially resulting in for service users. elivery of balanced become	Robust monitoring of the Council's revenue and capital budgets is in place as well as regular reporting of financial performance of the IJB to Cabinet and Audit and Scrutiny. To assist financial planning The Long Term Financial Outlook (LTFO) to 2030/31 was approved at Council on 16 December 2020 - this is the cornerstone of the Council's financial planning in the medium to long term. The Council approved a balanced budget for 2022/23 on 2 March 2022. A range of additional finance pressures have been identified including additional national insurance contributions, energy cost inflation, contractual commitments as well as significant construction inflation coming through the capital programme. To help mitigate the impact of cost pressures in 2022/23 the Cabinet report dated 7 June 2022 included the earmarking of funds:- • Contribution to the Loans Fund to support the 10 year Capital Investment Programme and address rising cost pressures, £2.569m; • Provision for contractual electricity and gas price increases for 2022/23 to reflect current market inflationary levels, £1.066m; • Provision for additional non-contractual inflationary pressures (e.g. food costs, fuel, etc.), £0.822m Further, due to the creation of IJB unearmarked reserves, an acceleration of early repayment of IJB debt owed to the Council will be actioned during 2022/23, therefore releasing resources to help address the £10.3m Budget gap for 2023/24. Finally, the Budget for 2023/24 was approved at Council on 1st March 2023. The budget included savings of £5m, a 5% increase in council tax and use of reserves totalling £3.5m. The indicative gap for 24/25 is over £17m with use of reserves planned at £5m. This will continue to present significant challenges to the Council.	4	5

particular certain excluded groups, will experience increasing levels of poverty and its effects, as a result both of the economic situation and Covid-19. Health inequality is closely linked to poverty, employment and people's earliest experiences as children, and will increase. The population of North Ayrshire is projected to fall over the next 10 years but there will also be a larger proportion of the population considered dependent (not economically active).	will increase.	ng people ople and people and alcohol ncil Services acrease, ntion reasing the ostly crisis pacted by	The HSCP re-affirmed its commitment to Tackling Inequalities by continuing to consider it a key priority with the Partnership's Strategic Plan. Through the HSCP strategic plan, the Partnership sets out actions to tackle inequality through its Partnership Pledge and across its strategic priorities. Tackling inequalities is addressed across HSCP service areas. An example of actions to help address local inequalities include: Establishing the Money Matters service in 9 GP practices and 7 local schools in the more deprived areas of North Ayrshire. This will improve accessibility of the service to those who would benefit most. Increase the number of employability mentors in Justice Services, to support those with experience of the justice service into meaningful employment or training opportunities and to help divert away from criminal behaviours. Working closely with Housing colleagues to ensure formerly looked after young people can access a positive and stable housing destination. In our Drug and Alcohol Services, we are implementing actions to reduce the number of local drug and alcohol related harms and deaths. This includes implementing the national MAT (Medicated Assisted Treatment) standards and increasing the number of ABIs (Alcohol Brief Interventions) delivered across North Ayrshire. Through the Caring for Ayrshire programme, we have set out a phased approach to improve local primary care premises (GP Practices and Health Centres). This will improve overall professional capacity within GP practices for Multi-Disciplinary Teams, ensuring the right support is available for local people with health concerns.	5	4

The Communities and Education Directorate considers reducing inequalities to be at the heart of its work.					
The Directorate leads the Community Planning Partnership for the Council and the CPP has recently developed a new Local Outcomes Improvement Plan, the purpose of which is reducing inequalities. The themes are Wellbeing, Work and World. Locality Planning priorities and CIF funded initiatives are also focused on a range of inequalities, including poverty, age-related inequalities and digital inequalities.					
The Directorate also leads the work of the Child Poverty and Cost of Living Board, chaired by the Council Leader. The four strategic themes of the Board to date have been:					
 No Wrong Door – access to services Employability Food Islands 					
Progress has been made with partners through a series on mini-enquiries, ensuring that lived experience influences developments and actions.	25 January 2023:				
The commitment to reducing inequalities is also reflected in the Communities and Education Directorate plans:	Each of these strategies, taken together, and further developed				
 the Educational Service Improvement Plan Connected Communities strategic plans and Equilities Management plans 	and implemented, should make a significant contribution to inequalities.	31-Mar-2024	Audrey Sutton; Caroline Cameron	•	
Facilities Management plans. Examples of actions to reduce inequalities:	Actions are being progressed				
 Deployment of Scottish Attainment Challenge funding to reduce the poverty related attainment gap in schools 	and remain within the Target date for completion.				
 Use of the Pupil Equity Fund to ensure equity of pupil experience in schools, at the discretion of head teachers 					
 Cost of the School Day actions to reduce, for example, the cost of school uniforms and clothing, food and outings 					
 Support for care experienced young people, both in schools and through youth services The Fairer Food Network, with 14 community larders which support the needs of individual communities 					
 A network of warm spaces and events to mitigate energy use and social isolation 					
 Work to support "New Scots," in schools, with families and in community settings through language support and capacity building, including women's groups 					
LGBT support groups for young people and those over 18					
 Mentoring support for young people in secondary schools through a partnership with MCR Pathways Participation strategies for children young people and adults to ensure our strategies and investment are informed by as wide a range of view as possible.

Risk Owner	Caroline Camero	n			
Risk Proximity Factors	Consequences	Impact	Existing Risk Control Measures	Likelihood	Impact
Uncertainty of future funding against growing demand and demographic pressures. Resources have not kept pace with the demand for and cost of social care services. The budget settlement for 23-24 is extremely challenging with a gap of around £7.5m across the IJB. There remains uncertainty around Covid-related costs with no additional funding for these beyond the end of 22-23. In earlier years, the HSCP did not manage to contain spend within the delegated budget, but surpluses were achieved in 20-21 and 21-22. Current projections are that the Partnership will also achieve a small surplus in 22-23. Outstanding debt to the Council is currently £2.321m but it is planned to clear the debt by the end of the 22-23 financial year. Current Scottish Government proposals to introduce a National Care Service (NCS) by 2026 will significantly impact on the IJB. Significant inflationary pressures across employee pay and contractual costs will increase the financial challenges for the Partnership. Low-volume high-cost care packages continue to present a financial challenge to the Partnership.	made that are no strategic plan. The demand levels e. intervention and demand is increat Funding levels in transform service The impact of the become clearer a	g. reduction in early prevention means that future	The IJB actively monitors the financial position with regular detailed reporting. Directors of Finance of the Council and Health Board have oversight and regular updates are provided to the Council's Cabinet. There is an integrated approach to managing the totality of NHS and Council resources delegated to the IJB. The Medium Term Financial Outlook will be refreshed for 2023-26 and presented to the IJB in March 2023. Previous financial settlements have seen both partners meet the Scottish Government settlement conditions with any additional resources passed to the IJB. The IJB had uncommitted financial reserves of £7.248m at the beginning of April 2022, which equated to around 2.6% of the budget. This is towards the lower end of the good practice target of 2%-4%. Significant funding has been provided to IJBs for the Covid-19 response, supported by regular financial returns to the Scottish Government. Costs were fully funded in 20/21, 21/22 and 22/23.	3	4

The potential compromise of business operations or a data breach orchestrated via either digital channels or the IT infrastructure. This can include targeting of the user base. Risk derives from both Council operations and those of its supply chain. The increasing importance of delivering services through digital channels and maximising efficiency through effective and secure use of technology. This includes a growing adoption of cloud-based computing resources which extend processing capabilities, and associated risks, beyond the Council's network. The response to the Covid-19 pandemic resulted in the remote and mobile working by staff as effectively being the normal working practice. This is likely to continue as a hybrid approach becomes the new normal. Such a distributed work force increases the complexity of protecting against cyber and data protection risks.	may result in a failure to a the desired levels of cyber to maintain and protect co data. There may be a significant authority through the relevent and/or sensitive information loss of public confidence financial loss incurred the service disruption. Risk Code SRR2324_R06	Risk Title	Climate Change		Latest Note Date	24-Jan-2023
Risk Owner	David Hammond				
Risk Proximity Factors	Consequences / Impact	t	Existing Risk Control Measures	Likelihood	Impact
Climate change is expected to continue and worsen in the future if no action is taken, with increases to mean global temperatures, sea level rises and the increasing frequency and severity of weather events such as floods, heatwaves, droughts and storms. More frequent and intense heavy rainfall events increase the risk of soil erosion and flooding. Rises in mean sea level increases risks of coastal erosion, flooding, saltwater intrusion and soil salinisation (risk to agricultural land and freshwater habitats). Severe weather is already affecting public services across Scotland, with operational, reputational, financial and legal consequences. There is also an ongoing impact of severe winter weather including snowfall and freezing temperatures which impact service delivery and the integrity of our roads open space and buildings infrastructure. This shift in weather patterns caused by climate change is also affecting biodiversity across Scotland.	Increased frequency of seconditions and flooding emore instances of damage infrastructure and properties service delivery and increaservices, often with little marks to life, transport distribution to the local environment of the local environment of the local environment of the local requirement to perform and sever emergency situations, included the Climate Climate Climate Climate Climate Climate to the Climate Climate change and the climate change.	events may lead to ge to Council ty, interruptions to eased demands on notice. uption and ronment, as well as local economy if o operate. rovide immediate e adverse effects vere weather cluding support to usinesses. o comply with the hange Duties' je (Scotland) Act re the Council to and opportunities change and identify	North Ayrshire Council declared a Climate Emergency in June 2019, committing to act on climate change and reduce carbon emissions. In January 2020 the Council approved the target to become net-zero carbon by 2030, for both Council estate emissions and area-wide emissions. The third iteration of the Environmental Sustainability & Climate Change Strategy was approved by Cabinet in May 2021, providing a road map to achieve the net zero carbon emissions by 2030 target. Climate Change Adaptation has been included as a workstream within the new strategy, utilising Adaptation Scotland's Capability Framework to ensure North Ayrshire takes a strong, proactive approach to adapting to climate change. Officers are participating in the Sustainable Scotland Network's 'Adaptation Scotland Benchmarking Group' to learn and share best practice with other local authorities. The Flood Risk Management Strategy has been developed into a 6- year plan which began in 2016. A second plan, which will follow on, is in development. In addition, actions to mitigate Climate Change risk are held within strategies such as the Core Paths Plan, Outdoor Access Strategy, Local Biodiversity Action Plan, and Weather and Winter Emergencies Plan. Asset management plans are in place which are regularly reviewed for our Roads, Fleet, Housing, Property and Open Spaces. Furthermore, through the Ayrshire Civil Contingencies Team there are emergency planning arrangements in place in the event of severe weather and flooding conditions causing major disruption and damage to the area or to individual communities within it.	4	4

Strategic Risk Action Plan			Date Updated	24-Jan-2023	
Analysis of Effectiveness of Controls	Further Action Required	Target Date for Completion	Officers Responsible	Current Status RAG	
Reducing Carbon Emissions:	24 January 2023:				
North Ayrshire Council declared a Climate Emergency in June 2019, committing to act on climate change and reduce carbon emissions. In January 2020 the Council approved the target to become net-zero carbon by 2030, for both Council estate emissions and area-wide emissions. The Council has taken action against climate change since our first Carbon Management Plan in 2006/07, by working to reduce emissions associated with Council services, and using the baseline year of 2005/06 from which to measure progress. Since the baseline year of 2005/06, Council estate emissions have reduced by 67.8%, from 67,719 tonnes of carbon dioxide equivalent (tCO2e) to 21,794 tCO2e (a reduction of 1,052 tCO2e from the previous year). Area-wide emissions are published by BEIS two years in arrears. Total emissions have reduced across North Ayrshire by 49%, from 1,437 kilotonnes of carbon dioxide (ktCO2) in 2005 to 730 ktCO2 in 2020. To ensure North Ayrshire Council can develop a leading, cross-sector and community led approach we established a Climate Change Steering Group (CCSG) in 2021. The CCSG is chaired by the Cabinet Member for Economy and Climate Change and brings together young people, local businesses and community organisations from across North Ayrshire.	Economy, Transport & Travel, Natural Environment, Sustainable Operations, Carbon Absorption and Climate Change Adaptation), 65 actions have been identified and progressed over the course of the	31-Mar-2023	David Hammond		
Flood Risk Management Plan: Cycle 2 of the Ayrshire Local Flood Risk Management Plan has been developed and published on 31 st December 2022. Studies and modelling will be undertaken to identify and prioritise vulnerable areas where financial damage and risk to life are most likely. There is an ongoing programme of monthly inspections of debris screens which have been installed to prevent vulnerable culverts from blocking and causing flooding. CCTV inspections of culverts are also undertaken to identify blockages and deterioration of assets that might cause flooding. This has been effective in reducing flooding, although there are capacity issues which this process cannot address. The Upper Garnock Valley FPS has been substantially completed and is currently providing flood protection.	 24 January 2023: We will undertake the actions outlined in cycle 2 of the Ayrshire Local Flood Risk Management Plan. We will continue to look for opportunities to implement Natural Flood Management and we will develop a range of further flood protection measures which can be put forward as schemes for inclusion in cycle 3 of the ALFRMP. We will complete the Millport Coastal FPS and the Mill Burn FPS. Inspections and CCTV surveys of culverts and screens will continue, including prioritised maintenance. Efforts will be made to continue to identify unknown culverts and add them to the ongoing inspection and maintenance process. 	30-06-2028	Thomas Reaney	•

Ongoing focus to consultation and engagement.	31-Mar-2024	Rhonda Leith	•

Risk Code SRR2324_R08	Risk Title	National Care Service		Latest Note Date	25-Jan-2023
Risk Owner	Craig Hatton				
Risk Proximity Factors	Consequences / I	mpact	Existing Risk Control Measures	Likelihood	Impact
The proposals for a National Care Service represent one of the largest reorganisations in local government since the creation of local authorities in 1995/96. Uncertainty around future delivery models and the scope of the National Care Service, leading to uncertainty around the level of local authority resources which will be transferred to the National Care Service and also the level of funding to cover the remaining local authority services, with the Social Care Budget accounting for almost one third of local government expenditure. Complexity in the transferring of one of local government's most significant and important services, therefore resulting in considerable staff resourcing to undertake this task, as well as considerable financial cost. The arrangements for Children's Services are still to be determined, but if these are removed from the local authority there are risks arising from the arm's length proximity to Education. Tight timescales for implementation by the end of the current Parliamentary term in 2026, when boundaries and service scope are uncertain.	funding. Potential impact or services. Delays in the imple priorities and comr diverted resource. Potential loss of 'w local government t leadership and link Uncertainty create which may result in experience as well recruitment. Risk to the ongoing the Council into Ch removed from the Challenges around historic borrowing a assets. Reducing the capa	whole service' approach within hat benefitted from shared as across essential services. d for the council's workforce in a loss of existing talent and as difficulties with g work and service delivery by hildren's Services if these are local authority.	Engagement within the Health & Social Care Partnership with lead professionals, input by Senior Managers within the HSCP and consideration by the Partnership Senior Management Team on the Scottish Government's proposals for the National Care Service. The North Ayrshire Integration Joint Board approved their response to the consultation at their meeting of 21 October 2021. Cabinet approved their response to the consultation at their meeting of 2 November 2021. Participation in the annual National Care Service Forum, with the first meeting held on 3 October 2022.	5	4
