| Title: | Capital Programme and Treasury Management Performance to 30 November 2023 | | | |
| Purpose: | To advise Cabinet of progress in delivering the Capital Investment Programme 2023/24 and the associated Treasury Management performance to 30 November 2023. | | | |
| Recommendation: | That Cabinet agrees to: (a) note the revisions to budgets outlined in the report; (b) note (i) the General Services and HRA revised budgets at 30 November 2023; and (ii) the forecast expenditure to 31 March 2024; (c) approve the virement proposals noted within the HRA programme detailed in appendix 2; and (d) note the estimated performance against the Prudential Indicators set out in the Treasury Management and Investment Strategy. | | | |

1. Executive Summary

- 1.1 The General Services Capital Investment Programme 2023/24 to 2030/31 was approved by Council on 1 March 2023. The Housing Revenue Account (HRA) Capital Investment Programme 2023/24 sits within the updated HRA Business Plan and was approved by Council on 15 February 2023.
- 1.2 This report identifies the current programme for 2023/24, taking account of adjustments made to the initial budgets. The report presents the revised budgets at 30 November 2023 (Period 8) and forecast expenditure to 31 March 2024.
- 1.3 At Period 8 the General Fund is forecasting a net breakeven position against a revised budget of £97.079m. The HRA is forecasting a projected underspend of (£0.934m) against a revised budget of £40.664m.
- 1.4 Within the General Fund adjustments to funding have resulted in net increases to the overall capital programme of £0.982m. These are primarily related to additional Scottish Government funding, including £4.000m to support the 2023/24 SJC pay settlement, partly offset by the withdrawal of the HOME project and the sale of the site to the HRA. Further details on the accounting entries required to transfer the additional funding to Revenue to offset the costs of the pay award are awaited.

- 1.5 Reviews of individual project plans have identified a number of adjustments to the current profiles. As a result, (£12.158m) has been reprofiled for delivery in 2024/25 and beyond. This has been partly offset by the acceleration of £2.423m to 2023/24 from future years.
- 1.6 Within the HRA, a review of delivery timescales has identified a requirement to accelerate $\pounds 0.650m$ to 2023/24 from future years. This is partly offset by the reprofiling of ($\pounds 0.420m$) of works for delivery in 2024/25 and beyond.
- 1.7 Major risks to the forecast position arising from cost volatility linked to inflationary pressures; limited availability of contractors, supply chain issues and material shortages which are impacting on tender returns and the cost of materials; delays resulting from interaction with external agencies and regulators; contract management issues and the cost of borrowing, have been identified. Projects will continue to be monitored closely with cost increases met initially from the additional flexibility built into the programme. Any costs in excess of the current level of flexibility provision will require to be funded from within existing resources.
- 1.8 Current proposals by the Scottish Government to change the current capital accounting regulations and undertake a review of local authority capital accounting arrangements may have negative impacts on the affordability of the capital investment programmes. COSLA and the Directors of Finance group continue to challenge the proposed changes.
- 1.9 The Treasury Management and Investment Strategy (TMIS) for 2023/24 was approved by Council on 1 March 2023 and detailed the key performance indicators under the Prudential Code for Capital Finance in Local Authorities (2021 edition). During the period to 30 November 2023, the Council has undertaken additional planned long term borrowing of £30m. The current estimated performance indicates that North Ayrshire Council has operated within the treasury limits and performance indicators set out in the TMIS and the current capital investment plans remain affordable.

2.4 (c) Alterations to the Phasing of Projects

A further review of individual project plans, taking cognisance of the current levels of volatility within the construction sector, has identified a requirement to re-profile (\pounds 12.158m) of works for delivery in 2024/25 and beyond:

| Service | Amount | Project |
|------------------|-----------|------------------|
| Chief Executives | (£0.060m) | ICT Projects |

| | (£18.036m) | |
| Corporate | £9.631m | Sensitivity Adjustment |
| - | £9.631m | |
| Total | (£12.158m) | |

These adjustments have been partly offset by the acceleration of $\pounds 2.423m$ of expenditure to 2023/24 from future years.

| Service | Amount | Project |
|-------------|---------|----------------------|
| HSCP | £0.195m | Community Alarms |

2.5 These adjustments have resulted in a revised 2023/24 budget at 30 November 2023 of £97.079m.

2.6 The following graph illustrates the movement in each programme on a service basis compared to the revised programme:

2.7 The impact on budgeted funding, elements of which are related to the profile of expenditure reported above, is a reduction of £12.753m from the revised budget, including:

The projections are summarised by service in the following table:

- 2.9 A net breakeven position is projected. Information on the progress of all projects can be found in Appendix 1.
- 2.10 Although not formally reflected in the financial performance reports at this time due to ongoing uncertainty, areas of cost risk have been identified across a number of projects. These risks are linked to a number of factors, including cost volatility linked to inflationary pressures; limited availability of contractors, supply chain issues and material shortages which are impacting on tender returns and the cost of materials; delays resulting from interaction with external agencies and regulators; and other contract management issues across a number of projects. Specific projects where cost risks have been identified, or are anticipated, include Moorpark Primary, Montgomerie Park Primary, Ardrossan Campus, Upper Garnock Flood Prevention Scheme, Millport Coastal Flood Prevention Scheme, Largs Sea Wall, Ardrossan North Shore and Ardrossan Harbour Interchange. While some mitigation has been built into the Capital Programme in the form of flexibility budgets, totalling £10m over the next few years, cost pressures may exceed this provision. These risks will be quantified as individual projects are completed and tendering exercises are finalised, with the impact on the costs of the programme being monitored and reported to Cabinet as appropriate. It is recognised, however, that any costs in excess of the current level of flexibility provision will require to be funded from within existing resources.

- 2.11 In addition to the risks identified in relation to individual projects, significant financing risks continue to be identified in relation to the overall affordability of the capital investment programme due to the increased cost of borrowing and proposed changes to capital and loans fund accounting regulations currently being considered by the Scottish Government. Proposals currently under consideration include limitations to the methodology used to calculate the annual Loans Fund repayments for the financing of capital investments. If the current annuity method is withdrawn and replaced with straight line charges over the life of the advance this could have a significant impact on the affordability of the current capital investment programme.
- 2.12 The Scottish Government have also indicated a desire to undertake a wider review of local authority capital accounting arrangements which could have unforeseen implications for local authority investment programmes. COSLA and the Directors of Finance group continue to challenge the proposed changes to the regulations and the need for a wider review of capital accounting arrangements.
- 2.13 As noted in this report, the programme is currently affordable based on the estimated funding streams and the actions agreed by Council to supplement the Loans Fund. However, the ongoing borrowing position and associated risks will continue to be monitored and a full assessment of affordability will be included in the next major review of the capital programme due for completion during 2023/24.

Housing Revenue Account

| | 2023/24 |

| | £m |
| Budget as at 31 August 2023 | 40.434 |
| a) Alterations to phasing of projects:- | |
| 2023/24 to 2024/25 | (0.420) |
| 2024/25 to 2023/24 | 0.650 |
| Budget as at 30 November 2023 | 40.664 |

2.14 The following table outlines the movements in the 2023/24 HRA Capital budget:

2.15 (a) Alterations to the Phasing of Projects

A review of the timescale for delivery of capital projects has identified a requirement to re-profile (£0.420m) of works for delivery in 2024/25 and beyond, including:

| Category | Amount | Project |
|---------------------|-----------------------------------|----------------------------|
| Improvements | (£0.123m) | Kitchens |
| | (£0.112m) | Energy Efficiency |
| | (£0.050m) | Electrical Rewiring |
| | (£0.043m) | Solar Panels |
| | (£0.014m) Other Minor Adjustments | |
| | (£0.342m) | |
| Other Capital Works | (£0.050m) | Lift Replacement |
| | (£0.028m) | Estates Based Regeneration |
| | (£0.078m) | |
| Total | (£0.420m) | |

This has been offset by the acceleration of £0.650m of project expenditure for delivery during 2023/24, including:

| Category | Amount | Project |
|--------------|---------|-----------------------------|
| New Builds | £0.034m | Contingency - Garrier Court |
| | £0.034m | |
| | | |
| Improvements | £0.411m | Roofing |
| | £0.160m | EWI |
| | £0.045m | Other Minor Adjustments |
| | £0.616m | |
| Total | £0.650m | |

- 2.16 These adjustments have resulted in a revised 2023/24 budget at 30 November 2023 of £40.664m.
- 2.17 The impact on budgeted funding is reduced Prudential Borrowing aligned to the revised programme:

| Category | Amount | Comments |
|-----------|-----------|--|
| Borrowing | (£0.230m) | Reduction aligned to projected expenditure |
| Total | (£0.230m) | |

2.18 Projected Capital Expenditure to 31 March 2024

| Expenditure | | | | | |
| Housing Revenue Account | 40.434 | 0.230 | 40.664 | 39.730 | (0.934) |

| Prudential Borrowing | (21.988) | (0.230) | (22.218) | (21.284) | 0.934 |
| Total Income | (40.434) | (0.230) | (40.664) | (39.730) | 0.934 |

The projections are summarised in the following table:

2.19 A variance of (£0.934m) is projected within the HRA capital programme for 2023/24 arising from revisions to a number of projects and a range of minor over and underspends, including:

| Project | Variance | Comments |
|-----------------------|-----------|---------------------------------------|
| Heating | (£0.552m) | Scope of works reduced |
| Wet Rooms & Bathrooms | (£0.328m) | Scope of works reduced |
| Health & Safety | (£0.207m) | Budget no longer required |
| Kitchens | (£0.145m) | Scope of works reduced |
| High Flat Demolition | (£0.104m) | Delayed Completion - Anticipated 2024 |
| St Michael's Wynd | (£0.101m) | Project Complete |
| Friars Lawn | (£0.088m) | Project Complete |
| Asbestos | (£0.017m) | Budget no longer required |
| Major Improvements | (£0.006m) | Budget no longer required |
| Newhouse Drive | (£0.005m) | Budget no longer required |
| Dalrymple Place | £0.017m | Previous underspend overstated |
| St Colms Largs | £0.021m | Project Complete |
| Springvale | £0.106m | Project Complete |
| Brathwic Terrace | £0.129m | Project Complete |
| EWI | £0.346m | Additional scope and increased costs |
| Total | (£0.934m) | |

2.20 In addition to the adjustments noted above Appendix 2 highlights a number of proposed virements which are required to transfers budgets between individual projects and align the budgets with the projected expenditure.

2.21 Further cost pressures resulting from inflationary and supply chain issues continue to be monitored and a review of the potential impact on the Business Plan and Capital Programme will be undertaken to address any identified issues. Further information on the progress of all projects can be found in Appendix 2.

Treasury Management and Investment

2.22 The Prudential Code for capital finance in local authorities (2021 edition) requires the Council to set and monitor performance against specified prudential indicators. The indicators for the current year were set out in the Treasury Management and Investment Strategy 2023/24, approved by Council on the 1 March 2023. A summary of the key indicators and our current estimated performance against them is shown in the following table. Further details of all the Prudential and Treasury indicators can be found in appendix 3.

| Prudential and Treasury Indicators | 2023/24 Approved Estimate £m | 2023/24 Revised Estimate £m | Movement £m |
|--|---------------------------------------|--------------------------------------|----------------|
| (a) Loans Capital Financing Requirement | | | |
| General Services | 267.879 | 259.230 | (8.649) |
| HRA | 284.275 | 179.490 | (104.785) |
| Total | 552.154 | 438.720 | (113.434) |
| (b) Gross Borrowing | 490.154 | 311.720 | (178.434) |
| (c) Operational Boundary for Borrowing | 571.667 | 457.158 | (114.509) |
| Authorised Limit for Borrowing | 628.834 | 502.874 | (125.960) |
| Total Operational Boundary (incl. PPP/NPD) | 659.399 | 544.890 | (114.509) |
| Total Authorised Limit (incl. PPP/NPD) | 716.566 | 590.606 | (125.960) |
| (d) Investments | 20.000 | 20.000 | - |

2.23 (a) Loans Capital Financing Requirement

The Loans Capital Financing Requirement (CFR) is the underlying borrowing requirement of the Council. This is currently lower than the approved estimate as a result of the change in profile of the capital programmes highlighted within this report.

2.24 (b) Gross Borrowing

Gross Borrowing is projected to be lower than anticipated due to the revised profile of capital projects and the continued use of internal funds, the latter being a key element of the Treasury Management Strategy to minimise costs. During the period to 30 November 2023, the Council has undertaken additional planned long term borrowing of £30.000m in support of the capital investment programme.

2.25 (c) Operational Boundary

The Operational Boundary is the maximum which the Council anticipates borrowing to fund the current year capital programme, building in flexibility for the timing of the different funding streams and principal repayments. The in-year variance is linked to the continued use of internal funds and the re-profiling of the capital programme.

2.26 (d) Investments

It is estimated that the Council will maintain an average balance of £20.000m of internally managed funds and utilise cash balances during the year in support of the under-borrowed position. The internally managed funds are primarily invested in call accounts with banks, Money Market Funds and other UK local authorities.

2.27 It is critical that the Council ensures that its capital investment plans are affordable. Affordability of borrowing is measured by the percentage of financing costs relative to the net revenue stream of the General Fund and Housing Revenue Account (HRA). As at 30 November, the estimated percentages for 23/24 are 2.5% and 20.5% for the General Fund and HRA respectively. Capital expenditure impacts on the revenue budget through financing charges so it is essential the Council ensures the financing costs remain affordable and do not constitute an excessive proportion of the revenue resources available. From a General Fund perspective, the latest Scottish Local Authority average is 5.5%, therefore demonstrating a prudent borrowing policy. For the HRA, the Scottish average is 22.7%. The level of loan charges is deemed prudent and affordable within the framework of the 30 year Housing business plan.

Capital Expenditure for both the General Fund and HRA vary from original estimates due to changes in the profile of projects. Full details of all movements in the capital expenditure budgets are included in this report.

| Loans Capital Financing Requirement (CFR) | 552.154 | 438.720 | (113.434) |

The reduction to the Capital Financing Requirement reflects the change in profile of the capital programme.

| Proportion of financing costs to net revenue stream | 2023/24 Original Estimate % | 2023/24 P8 Projection % |
|---|-----------------------------------|-------------------------------|
| General Services | 3.4% | 2.5% |
| HRA | 27.8% | 20.5% |

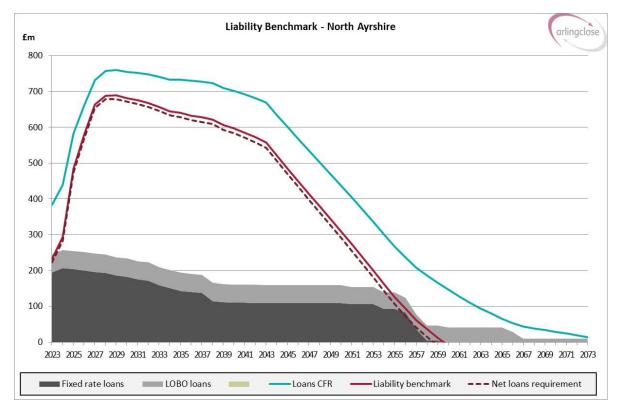

Capital expenditure impacts on the revenue budget through financing charges so it is essential the Council ensures the financing costs remain affordable and do not constitute an excessive proportion of the revenue resources available. From a General Fund perspective, the latest Scottish Local Authority average was 5.5%, thereby demonstrating a prudent borrowing policy. For the HRA, the Scottish average was 22.7%. The level of loan charges is deemed prudent and affordable within the framework of the 30 year Housing business plan.

| (Under)/Over Borrowed Position | (62.000) | (127.000) | (65.000) |

The Council is currently projecting an under-borrowed position of £127.000m due to the continuing strategy to delay long-term external borrowing by utilising internal cash balances.

Liability Benchmark

The liability benchmark is an important tool to help establish whether the Council is likely to be a long-term borrower or long-term investor in the future, and so shape its strategic focus and decision making.

The Liability benchmark graph above is used to inform the Council's borrowing strategy. The shaded grey area shows the Councils current debt and the gap between this and the Liability benchmark line is how much more borrowing the Council likely needs to undertake to support its current capital plans once taking into account its balance sheet resources including the net debtor / creditor and useable reserves. The above graph indicates that long term borrowing for the period of around 20 years would be most appropriate to meet the Councils borrowing needs and mitigate against interest rate risk.

The maturity structure of the debt portfolio at 30 November 2023 is shown below and shows the period when the Council is required to repay and/or refinance debt. It is important to ensure a reasonable spread of debt to mitigate against high exposure levels in respect of refinancing. The current profile ensures this:
