| 1.  | EXECUTIVE SUMMARY  |
|-----|--|
| 1.1 | The report provides an overview of the financial position for the Partnership and outlines the projected year-end outturn position informed by the projected expenditure and income commitments; these have been prepared in conjunction with relevant budget holders and services. It should be noted that, although this report refers to the position at the end of July, further work is undertaken following the month end to finalise projections, therefore the projected outturn position is as current and up to date as can practicably be reported. |
| 1.2 | The projected outturn is a year-end underspend of £0.389m (0.1%) for 2022-23.  |

| 1.3 | From the core projections, overall, the main areas of pressure are learning disability care packages, residential placements for children, supplementary staff in wards and Unplanned Activities (UnPACs) within the lead partnership for mental health.  |
|-----|---|
| 2.  | CURRENT POSITION  |
| 2.1 | The report includes an overview of the financial position including commitments against the available resource, explanations for the main budget variances and an update on progress in terms of savings delivery.  |
|     | The report also includes detail of the estimated costs and potential financial impact of the Covid-19 response.   |
|     | FINANCIAL PERFORMANCE – AT MONTH 4  |
| 2.2 | At Month 4 against the full-year budget of £280.909m there is a projected year-end<br>underspend of £0.389m (0%). The Integration Scheme outlines that there is an<br>expectation that the IJB takes account of the totality of resources available to balance<br>the budget in year. Following this approach, an integrated view of the financial<br>position should be taken, however it is useful to note that this overall position consists<br>of a projected underspend of £0.661m in social care services and a projected<br>overspend of £0.272m in health services.  |
|     | Appendix A provides the financial overview of the Partnership position. The sections that follow outline the significant variances in service expenditure compared to the approved budgets.   |
|     | The projections for some areas will be subject to fluctuations as they depend on recruitment plans for new funding and also the capacity of providers to take on work.  |
| 2.3 | Health and Community Care Services  |
|     | Against the full-year budget of $\pounds$ 81.169m there is a projected underspend of $\pounds$ 0.757m (0.9%) and the main variances are:  |
|     | <ul> <li>a) Care home placements including respite placements (net position after service<br/>user contributions and charging order income) are projected to underspend by<br/>£1.070m.</li> </ul>  |
|     | The budgeted number of permanent placements is 778 and at month 4 there are 755 placements. The projection assumes that there will be a gradual increase in placements to reach the budgeted figure by the end of the financial year. Within the projection there is an assumption that recent placements which do not have a completed financial assessment (often due to the pressure to discharge from hospital) are costed with 50% of the cases at the current average cost of a placement and 50% at the gross or interim funded rate. It is likely that there will still be some cases being gross or interim funded at the year end. Their actual cost will not be known until the FA1 financial assessment is completed. |
|     | The level of income recovered from charging orders was under recovered in 2021-22 but an online position is assumed at month 4.   |

|     | b) Care at home (in house) is projected to be £0.637m underspent. As there are vacant posts some of the current capacity is being met by existing staff working additional hours and casual staff. Bank staff are being offered contracts and additional staff are being recruited which will replace the need for existing staff to work additional hours. The majority of the underspend is in purchased care at home as providers are not always able to accept referrals due to staffing / recruitment issues. |
|-----|--|
|     | c) Community alarms are projected to be £0.205m underspent due to vacancies which are being actively recruited to.   |
|     | d) Reablement services are projected to be £0.153m underspent due to vacancies which are being actively recruited to.  |
|     | e) Care at Home Charging Income is projected to under recover by £0.087m due to an ongoing shift towards personal care which is non chargeable. This is after applying £0.076m of covid funding.   |
|     | f) Physical Disability Care Packages (including residential and direct payments) -<br>projected overspend of £0.144m in community care packages, £0.099m in direct<br>payments and £0.313m for residential placements.   |
|     | g) Adaptations are projected to be online based on spend to date.  |
|     | h) Anam Cara is projected to overspend by £0.127m due to an overspend on employee costs relating to covering vacancies and sickness.   |
|     | i) Integrated Island Services is projected to be £0.164m overspent mainly due to additional accommodation costs for mainland staff working at Montrose House following the recent increase in the number of residents.   |
|     | <li>j) District Nursing is projected to overspend by £0.029m due to an overspend on<br/>supplies.</li>   |
|     | k) Rehab wards are projected to overspend by £0.188m (Redburn ward £0.286m<br>overspent and Douglas Grant £0.098m underspent). The overspend at Redburn<br>is due to cover costs for vacancies as well as supplementary staffing for patients<br>who require one to one support.   |
| 2.4 | Mental Health Services   |
|     | Against the full-year budget of $\pounds$ 87.744m there is a projected overspend of $\pounds$ 0.726m (0.8%). This excludes any potential variance on the Mental Health Recovery and Renewal Funding where any underspend will be earmarked at the year-end for use in 2023-24. The main variances are:   |
|     | a) Learning Disabilities are projected to overspend by £1.117m and the main variances are:   |
|     | <ul> <li>Care Packages (including residential and direct payments) - projected<br/>overspend of £0.494m in community care packages, £0.200m in direct<br/>payments and £0.468m for residential placements.</li> </ul>  |

Community Learning Disability Care packages are proving to be one of the most challenging areas to address overspends. The data from CM2000 will be reported back to the service to allow them to see where care has deviated from the planned level and focus reviews to those areas. In house day care is projected to underspend by £0.144m as a result of reduced service provision due to Covid restrictions and vacancies following the service redesign and staffing model changes. Residential Respite is projected to overspend by £0.091m which reflects funding the new facility (Roslyn House) to full capacity. b) Community Mental Health services are projected to underspend by £0.451m and included within this are underspends of £0.650m in community packages (including direct payments) and an overspend of £0.188m for residential placements. c) The Lead Partnership for Mental Health is projecting to be £0.090m overspent and the main variances are as follows: A projected underspent in Adult Inpatients of £0.226m. This is mainly due to • overspends in the of supplementary staff, staff in redeployment and reduced bed sale income which are offset by £0.306m of income in relation to the firestop works. The UNPACS (Unplanned Activities) budget is projected to overspend by • £1.200m based on current number of placements remaining until the year end. These placements are for individuals with very specific needs that require a higher level of security and/or care from a staff group with a particular skill set/competence. There are no local NHS secure facilities for women, people with a learning disability or people with neurodevelopmental disorder. This can necessitate an UNPACs placement with a specialist provider which can be outof-area. The nature of mental health UNPACS spend is that it is almost exclusively on medium or long term complex secure residential placements which are very expensive so a small increase in placements can have a high budgetary impact. Due to the complexity and risk involved, transitions between units or levels of security can take many months. Applications to approve a placement are made to the Associate Medical Director for Mental Health who needs to be satisfied that the placement is appropriate and unavoidable prior to this being agreed. A projected overspend in MH Pharmacy of £0.100m due to an increase in • substitute prescribing costs. Learning Disability Services are projected to overspend by £0.206m. This is • mainly due to high usage of supplementary staffing, cross-charging for a LD patient whose discharge has been delayed and redeployment staffing costs. Supplementary staffing costs relate to backfill for sickness, increase and sustained enhanced observations and vacancies. The enhanced observations are reviewed on a daily basis however, due to the individuals being acutely unwell at present, this level of enhanced observations has been maintained for a lengthy period of time. The projection assumes that we begin cross charging another HSCP for the ongoing costs of the person detailed above where, despite having extensive time to identify an alternative placement there has, as yet been no solution identified.

|     | <ul> <li>Elderly Inpatients are projected to overspend by £0.144m mainly due to the use<br/>of supplementary staffing.</li> </ul>  |
|-----|--|
|     | <ul> <li>The turnover target for vacancy savings for the Lead Partnership is held within<br/>the Lead Partnership as this is a Pan-Ayrshire target. There is a projected</li> </ul>  |
|     | over-recovery of the vacancy savings target of £1.120m in 2022-23, further information is included in the table below:   |
|     | Vacancy Savings Target (£0.481m)   |
|     | Projected to March 2023 £1.601m  |
|     | Over/(Under) Achievement £1.120m   |
|     | The current projection to the year-end is informed by the recruitment plans and the confidence in recruitment success and realistic timescales for filling individual vacancies.   |
|     | <ul> <li>The areas contributing to this vacancy savings position are noted below:</li> <li>Adult Community Health services £0.192m</li> <li>CAMHS £0.546m</li> </ul>   |
|     | Mental Health Admin £0.240m  |
|     | <ul> <li>Psychiatry £0.100m</li> <li>Psychology £0.503m</li> </ul>   |
|     | <ul> <li>Associate Nurse Director £0.020m</li> </ul>   |
| 2.5 | Children and Justice Services  |
|     | <u>Children's Services</u><br>Against the full-year budget of £36.491m there is a projected overspend of £1.903m<br>(5.2%). The main variances are:  |
|     | a) Care Experienced Children and Young People is projected to overspend by £1.914m. The main areas within this are noted below:  |
|     | • Children's residential placements are projected to overspend by £2.450m prior to Covid funding and projected to overspend by £1.704m after £0.746m of Covid funding. We started 22/23 with 23 placements and of these placements one is assumed to be discharged in August, one in September, one in October and two in December taking the placement numbers to 18 by the end of the vegr   |
|     | <ul> <li>year.</li> <li>Fostering placements are projected to underspend by £0.153m based on the budget for 115 places and 115 actual placements (of which 6 are Covid related and are funded through the Covid-19 funding) since the start of the year. Recruitment of foster carers is an active priority for the team, both to limit the requirement for external foster placements and reduce pressures elsewhere on the service. This is promoted through regular targeted recruitment campaigns, community awareness raising and daily presence on various social media platforms. Our active recruitment strategy is gaining some interest and we are actively pursuing a number of enquiries as a result.</li> <li>Fostering Xtra placements are projected to be on-line after applying £0.086m</li> </ul> |
|     | of covid funding. The projection is based on the budget for 30 placements and 29 actual placements since the start of the year.  |

|     | •         | Private Fostering placements are p<br>on the budget for 17 placements a<br>the year.  | -   | •   |

|      | plans are in place to deliver savings and service change, with a solution focussed approach to bringing programmes back on track.  |
|------|--|
|      | Not all the service changes on the Transformation Plan have savings attached to them<br>but there is an expectation that they will lead to service improvements. The Plan is<br>critical to the ongoing sustainability and safety of service delivery and to supporting<br>the delivery of financial balance in future.  |
|      | Appendix C provides an overview of those service changes which do have financial savings attached to them and the current BRAG status around the deliverability of each saving.  |
| 2.11 | Budget Changes   |
|      | The Integration Scheme states that "either party may increase it's in year payment to<br>the Integration Joint Board. Neither party may reduce the payment in-year to the<br>Integration Joint Board nor Services managed on a Lead Partnership basis without<br>the express consent of the Integration Joint Board."  |
|      | Appendix D highlights the movement in the overall budget position for the Partnership following the initial approved budget.   |
|      | Reductions Requiring Approval:<br>1) Software license transfer to IT £0.003m<br>2) Prescribing £0.071m<br>3) Admin Post to Medical Records £0.034m   |
| 2.12 | NHS – Further Developments/Pan Ayrshire Services   |
|      | Lead Partnerships:   |
|      | The IJB outturn position is adjusted to reflect the impact of Lead Partnership services.<br>The outturn for all Lead Partnership services is shared across the 3 Partnerships on<br>an NRAC basis; this position is currently the default pending further work to develop<br>a framework to report the financial position and risk sharing across the 3 Partnerships<br>in relation to hosted or lead service arrangements, which has been delayed by the<br>requirement to focus efforts on the Covid response. |
|      | The final outturn in relation to North Lead Partnership services would not be fully attributed to the North IJB as a share would be allocated to East and South Partnerships; similarly, the impact of the outturn on East and South led services will require to be shared with North. At Month 4 the MH lead partnership is projected to overspend by £0.090m (£0.029m NRAC share for East and £0.028m for South).   |
|      | <b>East HSCP</b> – are projecting a $\pounds 0.604m$ underspend of which $\pounds 0.223m$ (37%) is attributable to North. The main variances are:  |
|      | <b>Primary Care -</b> there are reduced costs within Dental Services, where there is a projected underspend of £0.277m. This is largely due to Childsmile and the Dental Management Team both running with a number of vacancies. In addition, there are reduced costs within Primary Care Contracting and   |

|      | <ul> <li>possible over the course of 2022/23.</li> <li>Prison and Police Healthcare - there is a projected underspend of £0.303m due to reduced new contracts. however there is a review of the prison service currently being undertaken/ It is expected that these funds will go towards improving the staff levels within the prison however an underspend of £0.303m is projected at this early stage of the financial year.</li> <li>South HSCP – projected overspend of £0.171m (£0.063m NRAC share for NAHSCP). The overspend is mainly due to an overspend in the community store and continence service offset by vacancies in the Family Nurse Partnership.</li> <li>Set Aside: - an approach has yet to be decided on for 22/23, which may be used as a "shadow year" for using current year activity. This will depend on how representative the activity is felt to be. By default inflation will be applied to the 2021/22 budget.</li> <li>The annual budget for Acute Services is £373.3m. The directorate is overspent by £3.1m, caused by increasing overspends on agency medical and nursing staff, together with increasing drug expenditure. These have been required due to the level of operational pressure being experienced, in common with many other areas in Scotland at present.</li> <li>There is a material underlying deficit caused by: <ul> <li>Unachieved efficiency savings</li> <li>High expenditure on medical and nursing agency staff, high rates of absence and vacancy causing service pressure</li> </ul> </li> </ul> |
|------|---|
|      | <ul> <li>High numbers of delayed discharges</li> <li>The IJBs and the Health Board work closely in partnership to maintain service and improve performance.</li> </ul>  |
| 2.13 | FINANCIAL RISKS   |
|      | <ul> <li>There are a number of ongoing financial risk areas that may impact on the 2022-23 budget during the year, these include:</li> <li>High risk areas of low volume / high-cost services areas e.g. Learning Disability care packages, children's residential placements and complex care packages.</li> <li>Progress with the work to develop set aside arrangements and the risk sharing arrangements agreed as part of this</li> <li>Ongoing implementation costs of the Scottish Government policy directives</li> </ul>   |

|      | - The Covid recover  |   |  |   |

| 4.    | IMPLICATIONS               |   |
|-------|----------------------------|---|
| Fina  | ncial:                     | The financial implications are as outlined in the report.<br>Against the full-year budget of £280.909m there is a<br>projected underspend of £0.389m. The report outlines the<br>main variances for individual services.  |
| Hum   | an Resources:              | The report highlights vacancy or turnover savings achieved<br>to date. Services will review any staffing establishment plans<br>and recruitment in line with normal practice when<br>implementing service change and reviews as per agreement<br>with the IJB, there is no intention to sustain this level of<br>staffing capacity reduction on a recurring or planned basis. |
| Lega  | l:                         | None  |
| Equa  |                            | None  |
| Child | aren and Young People      | None  |
| Envi  | ronmental &<br>ainability: | None  |
|       | Priorities:                | None  |
|       | Implications:              | Para 2.13 highlights the financial risks.   |
|       |                            | The report falls in line with the agreed risk appetite statement which is a <b>low</b> -risk appetite in respect to adherence to standing financial instructions, financial controls and financial statutory duties and a <b>high</b> -risk appetite in relation to finance and value for money.  |
| Com   | munity Benefits:           | None  |

| 5.  | CONSULTATION   |
|-----|--|
| 5.1 | This report has been produced in consultation with relevant budget holders and the Partnership Senior Management Team.   |
|     | The IJB financial monitoring report is shared with the NHS Ayrshire and Arran Director<br>of Finance and North Ayrshire Council's Head of Finance after the report has been<br>finalised for the IJB.  |
| 6.  | CONCLUSION   |
| 6.1 | It is recommended that the IJB:  |
|     | <ul> <li>(a) notes the overall integrated financial performance report for the financial year 2022-23, the overall projected year-end underspend of £0.389m;</li> <li>(b) notes the progress with delivery of agreed savings;</li> <li>(c) notes the remaining financial risks for 2022-23;</li> </ul> |

(d) approves the budget reductions which are detailed at para 2.11.
