

Integration Joint Board 16 August 2018

Subject:	Director's Report
Purpose:	To advise members of the North Ayrshire Integration Joint Board (IJB) of developments within the North Ayrshire Health and Social Care Partnership (NAHSCP).
Recommendation:	That members of IJB note progress made to date.

Glossary of Terms	
NHS AA	NHS Ayrshire and Arran
HSCP	Health and Social Care Partnership
IJB	Integration Joint Board
ACE	Adverse Childhood Event
WRAP	Wellness Recovery Action Planning
LAAC	Looked After & Accommodated Children
LAC	Looked After Children
YPST	Young Persons Support Team
PAT	Programme Approach Team

1.	EXECUTIVE SUMMARY
1.1	This report informs members of the Integration Joint Board (IJB) of the work undertaken within the North Ayrshire Health and Social Care Partnership (NAHSCP) nationally, locally and Ayrshire wide.
2.	CURRENT POSITION
	National Developments
2.1	New inspection approaches in care settings
	Since 1 April 2018, the Care Inspectorate have been referring to the new health and social care standards in all scrutiny and improvement work. They are now developing new inspection frameworks and models which reflect the ambition of the new standards, and the focus on experiences and outcomes. This will be done incrementally, and with the involvement of people who experience, provide, and commission care and support. This approach should support robust, evidence-based self-evaluation and will work during 2018/19 to build the capacity for this.

	From July 2018, the Care Inspectorate will introduce a new framework for inspections of care homes for older people , and use this framework on all inspections. You can find a copy of this, and more detail about how this will be used, at <u>www.careinspectorate.com/index.php/inspections/new-inspections</u> . The framework is designed for use in self-evaluation, inspection, and improvement support, and draws heavily on the new Health and Social Care Standards.
	It uses a series of key questions and quality indicators to help prompt reflection on the quality of care provided. It provides illustrations of what they believe constitutes 'very good' and 'weak' care and support in relation to each quality indicator, relevant to care homes for older people. The quality framework also provides information about how evidence is gathered on an inspection, and gives links to relevant improvement resources. Care Inspectorate will evaluate quality using the existing six point scale from unsatisfactory to excellent, and will report findings publicly.
2.2	National Secure Adolescent Inpatient Service
	A new public reference group is being set up for the new National Secure Adolescent Inpatient Service (NSAIS), which will provide a service for all of Scotland's young people who have complex difficulties and need a high level of care. The service will be located at Woodland View. Group members will be asked to share information in their community, help with development process and report to the project board.
	An information event was held on Monday 6 August at Fullarton Connexions, Irvine for everyone who'd like to know more and help the Partnership and NHS Ayrshire & Arran to develop the plans for the first secure inpatient service for young people in Scotland.
	North Ayrshire Developments
2.3	North Ayrshire Wellbeing and Recovery College Pilot 2018
	 This exciting pilot of a recovery college approach has been co-produced by people who use mental health services and mental health workers. A range of engaging courses have been delivered, including: Wellness Recovery Action Planning (WRAP) It's not what's wrong with me, it's what's happened to me that matters (understanding the impact of adverse childhood experiences) They Love Me, They Love Me Not (understanding relationships) Living Life to the Full Crafty Corner Stress Less!
	 A Wellbeing and Recovery College Pilot sharing experiences event took place on Wednesday 27 June at the Portal and Townhouse, 66 High Street, Irvine. The event included input from people who attended and facilitated courses and gave people the opportunity to : Find out about the wellbeing and recovery college approach Hear about the differences that taking part can make Find out about forthcoming courses Sign up for the wellbeing and recovery college

2.4	North Ayrshire Peer Support Service
	Following feedback from people who use mental health services in North Ayrshire about a need for formal peer support, a new service has been commissioned. We are delighted to announce that Penumbra will be developing this service and recruitment will be underway in the next few weeks.
	As this is a new service in the area, there will be a development phase over the next few months. Further information will be provided when the service is open to referrals.
2.5	New Opportunities for Care Leavers
	Our Throughcare Team, working together with colleagues from Economies and Communities (Redburn Project) and Impact Arts have received funding for 3 years from Life Changes Trust. The group will provide a range of activities for care experienced young people, including photography, music making and furniture/textile upcycling. There will also be a weekly drop-in session to enhance the activities and enable younger people to gain further skills and build on their confidence.
	The hope is that the activities can be extended and offered to all care experienced young people in North Ayrshire, including foster care, kinship, LAAC, LAC and YPST, P.A.T, Rosemount.
2.6	Individual Placement Support (IPS) Employability Service
	IPS is an evidence based approach that promotes recovery and increases access to paid employment for people with mental health problems through collaborative working with local employers and a range of voluntary and statutory agencies.
	North Ayrshire had a successful pilot IPS service for a period of one year and recently announced the continuation of the SAMH service for a further three years.
	The service is based in Three Towns Resource Centre, Saltcoats and is open to anyone who currently works with one of the community mental health teams (Primary Care Mental Health, Community Mental Health, Social Work Mental Health). A referral by one of these teams is required to access IPS.
	The pilot demonstrated excellent results in terms of supporting people to access paid employment, with 20 people accessing a job between June 2017 and 2018.
	This success exceeded the targets and North Ayrshire Health and Social Care Partnership looks forward to the ongoing development of the service and more people with mental health problems being supported in their recovery through access to work.
2.7	Participation and Engagement Strategy
	The HSCP has developed, with partners, a draft Participation and Engagement Strategy. The aim of the strategy is to ensure that people and communities in North Ayrshire are supported to have their say about health and social care issues, and have the opportunity to be involved in local decision making.
	The consultation is open until Friday 17 August – <u>click here at access</u> our draft Participation and Engagement Strategy (<i>Doing what matters, together</i>) for 2018–2021. The questionnaire (to gather feedback on the draft strategy) is available by <u>clicking this</u>

Collaboration between Rosemount Project and National Galleries Scotland continues with Art of the Future. Young people, from the Partnership's Rosemount project, have taken part in an interesting and exciting project to create art from scratch. Twenty-seven groups across Scotland (including Rosemount) received a mail order art toolkit of disparate materials and equipment. They were then encouraged to create an artistic response that revealed their lives and how they see the future. The exhibition, having been displayed at the National Gallery in Edinburgh, is now being brought to North Ayrshire. The exhibition will run at the Harbour Arts Centre from 3rd August to 2rd September 2018.
