**AYRSHIRE ROADS ALLIANCE  
REVENUE FINANCIAL MONITORING REPORT**

**Report by Chief Financial Officer & Head of  
Finance & ICT**

**PURPOSE OF REPORT**

- 1 The purpose of this Report is to update the Joint Committee on the revenue budget monitoring position for the year to 31<sup>st</sup> December 2022, for the Ayrshire Roads Alliance.
- 2 It is recommended that the Joint Committee
  - (i) Note the financial management position of the Ayrshire Roads Alliance.
  - (ii) Requests a further financial update at the next meeting of the Joint Committee.
  - (iii) Otherwise, notes the content of this Report

**REVIEW OF FUNDING MECHANISM**

- 3 The Joint Committee approved a Report on 23 May 2014 describing the budget monitoring arrangements for the Ayrshire Roads Alliance.
- 4 As part of the Detailed Business Case the service budget is split between strategic service delivery and local service delivery. This separates out the core/recurring costs of service delivery from the local service costs at a single Council level. This ensures that decisions on the level of local spend remain with local Members, and ensures that the local Members retain control of their local roads budgets. Appendix 1 provides a breakdown of this split.
- 5 At its meeting of 19<sup>th</sup> February 2016, Committee agreed a change to how Strategic Service Delivery would be allocated between the two Councils. A smaller group of core Strategic Delivery staff have been identified and their costs continue to be split equally. The remaining Strategic Delivery costs would be apportioned in line with Local Delivery budget inputs plus actual capital expenditure in-year.

## BUDGET ADJUSTMENTS

- 6 The budget available to ARA has been increased from £12.521m to £13.234m since the last report. This increase of £0.713 relates entirely to ARA East. The movements are explained in the following table:

	Budget 30/9/22	Budget 31/12/22	Budget Movement	Explanation
Strategic Delivery	£3.822m	£3.915m	£0.093m	Additional budget in relation to additional pay award – ARA East
Local Delivery - East	£4.227m	£4.847m	£0.620m	Additional budget to offset shortfall in Off Street Parking income (£0.490m), and meet additional pay award (£0.130m).
Local Delivery - South	£4.472m	£4.472m	£0.000m	
ARA	£12.521m	£13.234m	£0.713m

**STRATEGIC DELIVERY**

This variance mainly reflects staff turnover savings due to vacant posts (£0.507m) and reduced insurance costs relating to ARA South (£0.087m), along with additional income (£0.157m). This is partly offset by additional expenditure on computing (£0.019m), and various other small variances (£0.039m).

**LOCAL DELIVERY – EAST AYRSHIRE**

This variance mainly reflects a shortfall in on-street parking (£0.095m) and roads maintenance (£0.372m) income, the latter as a result of the slowdown in programmes as a result of increased material prices, along with additional expenditure on Supplies & Services (£0.331m), additional use of sub-contractors (£0.098m) and additional transport costs (£0.122m). This is partly offset by vacancies and turnover (£0.627m) particularly within Roads Maintenance, employee recharges in respect of cross boundary working (£0.145m) and additional rechargeable traffic and flood prevention works (£0.194m).

**LOCAL DELIVERY – SOUTH AYRSHIRE**

This variance mainly reflects additional expenditure on supplies and services (£0.299m), along with fuel price increases (£0.077m), vehicle maintenance charges (£0.050m), vehicle lease charges within Roads Maintenance (£0.017m) and additional sub-contractor costs (£0.097m). This is partly offset by additional income (£0.229m).

10 March 2023

**Report by the Interim Head of Roads - Ayrshire Roads Alliance**

---

**AYRSHIRE ROADS ALLIANCE  
RISK REPORT AND REGISTER**

---

**PURPOSE OF REPORT**

1. The purpose of this Report is to advise the Joint Committee on the management of risk associated with the Ayrshire Roads Alliance.

**RECOMMENDATIONS**

2. **It is recommended that the Joint Committee:**
  - i. **Notes the risk register presented in this report;**
  - ii. **Continues to receive updates on progress; and**
  - iii. **Otherwise, notes the content of the report.**

**BACKGROUND**

3. A report detailing the general approach to the Risk Report and Risk Register was presented to the Joint Committee on 21 August 2014, where it was agreed that the Risk Report and Risk Register would be a standing item on the agenda. This would ensure that the risks are monitored and scrutinised at a minimum of a quarterly basis.

**MAIN REPORT/MAIN ISSUES**

4. The management of risk aims to enable confident decision taking on risk and innovation, reduce waste and inefficiency, and lead to fewer unanticipated problems and crises that could undermine the performance and operation of the Ayrshire Roads Alliance.
5. The Risk Register is now in a new and improved format which will make it easier to review the individual risks which are now in a colour coded format.
6. The resulting revised risk register is contained in Appendix 2.  
There have been no changes to the Risk Register since the last Joint Committee.

The revised risk register illustrates the red, amber and green status and also illustrates whether the risk severity relates to time, indicated by [T] or cost, indicated by [C].

### **POLICY/COMMUNITY PLAN IMPLICATIONS**

7. A well maintained road network will contribute to achieving the Community Plan objectives in relation to Economy & Skills and Safer Communities to maintain good access to our communities within East Ayrshire.
8. The matters referred to in this report contribute to South Ayrshire Council strategic objective of 'Enhanced Environment through Social, Cultural and Economic Activities' and within that to the outcome 'Work with partners to improve roads and other infrastructure, to encourage house building and business investment that sustains local communities'.

### **LEGAL IMPLICATIONS**

9. The Risk Register is a management tool and this will not replace the existing statutory returns for risk and performance related information.

### **HUMAN RESOURCES IMPLICATIONS**

10. The Risk Register has no direct impact on human resources.

### **EQUALITY IMPACT IMPLICATIONS**

11. The Risk Register complements the Equality Impact Assessment by ensuring that any issues arising are adequately prioritised, managed and either eliminated or mitigated.

### **FINANCIAL IMPLICATIONS**

12. The Risk Register facilitates the existing scrutiny arrangements to manage, prioritise, and review the budget provided by East Ayrshire Council and South Ayrshire Council to the Ayrshire Roads Alliance.

### **RISK IMPLICATIONS**

13. The Risk Register assists in the prioritisation of risks that need to be mitigated by the Ayrshire Roads Alliance in order to reduce the overall risk to either Council and to comply with the Community Plan/Council Plan in both partner bodies.

### **TRANSFORMATION STRATEGY**

14. This Report aligns with the following design principle stated in the "Transformation Strategy 2017-2022".

- “Maximum value for our communities”, by ensuring the various elements of the Ayrshire Roads Alliance improves transport provision throughout East Ayrshire.

## **Appendix 1: Risk Register Scoring Matrix**

The Risk Matrix for deciding each of the risk factors (Likelihood x Severity) in a 5 by 5 matrix are illustrated in Table 1 below:

**Table 1: Risk Factors in Practical Form**

		Risk Likelihood				
		Rare (1)	Unlikely (2)	Possible (3)	Likely (4)	Almost Certain (5)
<b>Risk Severity</b>	<b>Catastrophic (5)</b>	! 5	! 10	✗ 15	✗ 20	✗ 25
	<b>Very Serious (4)</b>	✓ 4	! 8	! 12	✗ 16	✗ 20
	<b>Moderate (3)</b>	✓ 3	! 6	! 9	! 12	✗ 15
	<b>Minor (2)</b>	✓ 2	✓ 4	! 6	! 8	! 10
	<b>Insignificant (1)</b>	✓ 1	✓ 2	✓ 3	✓ 4	! 5

Following on from Table 1, the following Summary Risk Profile is colour coded to highlight the risk classification:

**Table 2: Summary Risk Profile**

<b>Assessed Risk (LxS)</b>	<b>Action Required</b>
Low Risk: 1 to 4	Acceptable/ can be accepted provided risk is managed.
Medium Risk: 5 to 12	Undesirable/ must be avoided if reasonably practicable.
High Risk: 15 to 25	Unacceptable risk - must be eliminated or moved to a lower level.

## APPENDIX 2: AYRSHIRE ROADS ALLIANCE RISK REGISTER

### NOTE:

The Risk rating will be influenced by considering a combination of event effects  
Such as associated cost, event duration, and organisational reputation.

The table below will provide some assistance with risk rating.

Incident Severity	Cost (£) [C]		Time [T]		Reputation
	Min	Max	Min	Max	
Insignificant (1)	£0	£10,000	0	1 day	Councillors/CEO
Marginal (2)	£10,001	£50,000	1 day	2 weeks	Local Media Facebook etc.
Significant (3)	£50,001	£500,000	2 weeks	1 month	Local Newspaper
Severe (4)	£500,001	£1,000,000	1 month	3 months	National Newspaper
Catastrophic (5)	£1,000,001	>£1,000,001	3 months	> 6 months	National News (TV)

To calculate the risk rating, multiply the Likelihood x Severity. <b>Example....</b> <i>Possible (3) X Significant (3) = Medium Risk</i>		Critical (5)	Severe (4)	Significant (3)	Marginal (2)	Insignificant (1)	SEVERITY INDEX
		Highly probable (5)	25	20	15	10	5
		Probable (4)	20	16	12	8	4
		Possible (3)	15	12	9	6	3
		Unlikely (2)	10	8	6	4	2
		Very Unlikely (1)	5	4	3	2	1

KEY	
High Risk (16 – 25)	Risks are not acceptable under any circumstances. Immediate action required
Medium Risk (8 – 15)	Additional controls measures may be required.
Low Risk (1 – 6)	Continue to monitor as part of review process or where changes occur.

Relaxing of UK driving regulations to maximise decreased LGV driver numbers. Additional usage of external contractors to ensure essential services / works programme targets are met. Covid safe workplaces / sites established to accommodate reduced number of staff. Further mitigation measures developed as national guidance information becomes available.	3	4	12 [T]	All Service Managers	Head of Roads – Ayrshire Roads Alliance	Further control measures to be developed/implemented as situation develops.	22/3/23
2	Fuel Shortage	Loss or restriction due to relief events. 3	Failure to align with Budget requirements	Level of investment required in road repairs and resurfacing and resulting cost of treatment higher than anticipated. Reduced budget could lead to the deterioration in the roads network, an increase in accidents, and insurance costs.  Loss of parking income as a result of changing behaviour / work patterns due to Covid.	Uniform claims handling system aligned with the Roads Inspection and Maintenance policy. Appropriate financial and performance monitoring arrangements in place to mitigate the risk. Regular meetings with and within partners Councils to advice on further resource and funding requirements.	2	4	8 [C]	Business Support Manager	Head of Roads – Ayrshire Roads Alliance	Adequate control measures are in place, specifically, monthly meetings held with budget holders to review revenue budget and take appropriate corrective actions to bring budgets within tolerance limits. 10. For 2023, Ayrshire Roads Alliance has submitted bids to Scottish Timber Transport for A719 (Morriston Farm to Blawearie Jct), (Enoch Lodge to Maybole Road) & (Maidens to Turnberry), B734 Old Dailly to Penkill, B7023 Ballochbroe to Crosshil and U52 Muck Rd, Pinwherry in South Ayrshire.
11. The roads maintenance teams continue to undertake winter treatment operations. Winter so far has shown some extreme low temperatures with forecasts for rain resulting in ice, heavy hoar frosts, black ice and snow across our network with our first action for gritting commencing on 28 November 2022 in both East and South Ayrshire.
12. The coldest week so far for winter 22/23 was w/c 12 December 2022 where we experienced extreme low Road Surface Temperatures (RSTs) of -11 degrees. During this time gritters were actioned daily from 2 December 2022 until 18 December 2022. The next extreme cold snap was w/c 16 January 2023 with temperatures plummeting again to RSTs of -8.0 degrees with black ice, hoar frost and snow forecast. ARA have experienced a milder February 2023 with only 5 treatments required up to 23 February 2023.
13. Salt orders were arranged for delivery in October 2022 and January 2023, however our January order was brought forward to December given the extremely cold temperatures we encountered. A further salt delivery was made during the month of January 2023 across our depots to ensure resilience levels were met. Our current salt stocks are 3000t in South Ayrshire Council and 2477t in East Ayrshire Council. Required resilience levels for February to March is 4,400t.

#### Street Lighting

14. With festive lighting activities now concluded, street lighting teams are now focusing on cyclic maintenance faults.
15. Utilising the external Contractor LED lighting installations continue to progress as detailed in Appendix 1 and 2.

#### Electric Vehicle Infrastructure

16. The Electric Vehicle Infrastructure Fund (EVIF programme) has been included within Appendix three for South and East Ayrshire respectively, with the number of public chargers installed to date is included at Appendix 3. Work has been ongoing with SFT and Transport Scotland to explore public/private partnerships for public charging network. The Ayrshire Public Electric Vehicle Charging Business Case is complete and we will begin the second phase of the Ayrshire Pathfinder Project in the new financial year. An additional £120k has been awarded to ARA to develop a private public strategy with a draft being discussed internally for submission to SFT/TS upon on approval from both authorities.

17. New EV chargers at Morton Place Car Park, Kilmarnock; Dundonald Primary School Car Park; Tarbolton Community Campus Car Park; and Chalmers Arcade Car Park, Girvan were powered up and commissioned in December 2022. Additionally, we have completed the EV Charge Point installation at Barrhill Community Car Park and final commissioning has been programmed.

### Structures

18. As reported at the last Shared Services Committee on 2 December 2022, many of the bridge projects that we undertake requires works to be undertaken within the watercourse and depending on what the works involve it can often take up to 4 months for the SEPA licence to be obtained with other constraints, such as the fish spawning season which typically runs from end October to end April restricting work in the watercourse. Appendix B show the EAC Bridges Capital programme and it is worth noting that although a sizeable underspend is anticipated there are 10 projects of estimated value £3.62m which are near tender ready or are about to go to tender or have recently been awarded.
19. Land acquisition and/or access agreements are often required for bridge related projects and can cause delay to the projects. A number of projects are currently near tender ready but are being delayed due to land related issues. ARA are actively working with the Council's Estates and Legal teams in all of these projects but land acquisition can be a very challenging and resource intense activity for ARA, Estates and Legal sections. Again, where possible, projects that do not require land acquisition or formal legal access agreements are being brought forward.
20. ARA representing South Ayrshire Council as a coastal authority participate as one of four Local Authorities on the Coastal Adaptation Budget Group which has representation from Scottish Government, Nature Scot, SEPA and Local Authorities.
21. The business case for Ballantrae was accepted by the Coastal Adaption Budget Group and £180,000 will be included for this project in the Scottish Government General Capital Grant for South Ayrshire Council in 2023/24.
22. The business case for Girvan Golf course was not accepted for funding, however positive feedback on the objective was received and encouragement given to submit the case study for future funding taking note of the feedback provided.

### Traffic & Transportation

23. Agreement has been reached where necessary to roll grant funding provision into the new financial year to complete projects. The focus of these projects will continue to be improvements to our roads and infrastructure to improve journeys and increase safety measures where required. The Active Travel Strategy for East Ayrshire will shortly be undergoing a final public consultation review – as previously agreed at EAC Cabinet the final version of the Strategy can be signed off by the Leader and Cabinet Member for Roads without the need to return to a

future Cabinet meeting. The Active Travel Strategy for South Ayrshire is finalised, and will be published imminently.

24. Road Safety Improvement Fund cross-boundary bid for £400,000 in total was originally submitted to Transport Scotland, however due to unforeseen budgetary circumstances Transport Scotland were forced to withdraw the funding and close the fund during the current financial year. The fund is to be reopened for 2023/24 and the ARA are currently considering the content of a cross-boundary bid for the forthcoming financial year. Whilst the detail of this bid has yet to be finalised, it may include the installation of pilot school gateway features at identified primary schools, an antiskid surfacing scheme on the A713 in EAC, a speed activated signals trial in SAC, and a road safety enhancement scheme at a junction in SAC.

#### APSE Highways, Street Lighting and Winter Maintenance Innovation Awards 2023

25. Ayrshire Roads Alliance are finalists in the Highways Maintenance innovation category qualifying in our Temporary Traffic Regulation Order (TTRO) digitalisation submission with the winners announced at an awards dinner on Thursday 23 March 2023 in Blackpool.
26. The APSE Highways Innovation Awards 2023; celebrates outstanding councils that use innovative ideas and solutions to tackle the current challenges facing their frontline highways, street lighting and winter maintenance services.

### **POLICY/COMMUNITY PLANNING ISSUES**

27. A well -maintained road network will contribute to achieving the Community Plan objectives in relation to Economy & Skills and Safer Communities to maintain good access to our communities within East Ayrshire.
28. The matters referred to in this report contribute to the South Ayrshire Council strategic objective of 'Enhanced Environment through Social, Cultural and Economic Activities' and within that to the outcome of 'Work with partners to improve roads and other infrastructure, to encourage house building and business investment that sustains local communities'

### **LEGAL IMPLICATIONS**

29. By virtue of the relevant statutory provisions, principally detailed within the Roads (Scotland) Act 1984, the Council as local roads authority is required to manage and maintain all publicly adopted roads within its area other than those which are maintained and managed by the Scottish Ministers.

### **HUMAN RESOURCES IMPLICATIONS**

30. The work programmes have direct impact on human resources and the Alliance will ensure all works are suitably resourced to maintain satisfactory progress.

## **EQUALITY IMPACT IMPLICATIONS**

31. An equality impact assessment is not needed because the proposal does not have a differential impact on any of the protected characteristics.

## **FINANCIAL IMPLICATIONS**

32. The Ayrshire Roads Alliance will deliver the strategic and local services as stated in the Service Plan. The budget is provided by East Ayrshire Council, South Ayrshire Council, and other external organisations. Appropriate scrutiny arrangements are in place to manage these budgets.

## **RISK IMPLICATIONS**

33. The Ayrshire Roads Alliance Risk Register is reviewed and presented at every joint Committee.
34. The Works Programmes, Service Plan and the Risk Register do not expose either Council to an increased risk as they have been developed from existing budgets and existing service commitment.

## **TRANSFORMATION STRATEGY**

35. This Report aligns with the following design principle stated in the "Transformation Strategy 2017-2022".

Maximum value for our communities; by ensuring the road network is maintained.

**Report by the Head of Roads - Ayrshire Roads Alliance**

---

**SUBJECT: AYRSHIRE ROADS ALLIANCE  
UPDATE ON PERFORMANCE SCORECARD**

---

**PURPOSE OF REPORT**

1. The purpose of this Report is to advise the Joint Committee regarding the progress made to date against the Performance Scorecard.

**RECOMMENDATIONS**

2. **It is recommended that the Joint Committee:**
  - i **Notes the performance scorecard presented in this report;**
  - ii **Continues to receive the performance scorecard updates; and**
  - iii **Otherwise, notes the content of the report.**

**BACKGROUND**

- 3 The purpose of the performance management and benchmarking is to work collaboratively to deliver tangible and sustained improvements within the Ayrshire Roads Alliance in order to manage the on-going development and delivery of benchmarking frameworks.
4. Improved performance management is fundamental to supporting the Ayrshire Roads Alliance. This drives change and improvement within the fully integrated roads service and support improved outcomes, better performance, and more effective use of resources.
5. The Performance Indicators are regularly refreshed when new useful performance measures are introduced by the Ayrshire Roads Alliance or there is an agreement to include a specific indicator. This will be a regular item for the Ayrshire Shared Service Joint Committee to review.

**MAIN REPORT/MAIN ISSUES**

6. This scorecard is collated by the Business Support Manager and used to:
  - monitor the progress in meeting the Ayrshire Roads Alliance's objectives;

- help managers to have performance-related conversations with staff; and
  - identify any problem areas that need addressed.
7. Some indicators are collated at different frequencies and so these will be included as appropriate.
8. The Performance Scorecard is presented in Appendix 1. Commentary against the specific red and amber performance measures are included in Appendix 1. There are a number of green performance measures which should be highlighted, especially:
- Finance with respect to the percentage of invoices paid within 30 calendar days. This is currently at 99% for this financial year.
  - Priority 1 and Priority 2 Faults – with respect to the percentage of priority 1 and 2 faults completed within timescale. This is currently above target for this financial year.
  - Safety Inspections – with respect to the percentage of safety inspections completed within the timescale. The service has achieved an average of 98% for this financial year.
9. The Process Improvement and Integration Plan continues to identify improvements to a number of existing processes for re-design within The Ayrshire Roads Alliance.

## **POLICY/COMMUNITY PLAN IMPLICATIONS**

10. A well maintained road network will contribute to achieving the Community Plan objectives in relation to Economy & Skills and Safer Communities to maintain good access to our communities within East Ayrshire.
11. The matters referred to in this report contribute to South Ayrshire Council strategic objective of 'Enhanced Environment through Social, Cultural and Economic Activities' and within that to the outcome 'Work with partners to improve roads and other infrastructure, to encourage house building and business investment that sustains local communities'.

## **LEGAL IMPLICATIONS**

12. The Performance Scorecard summarises the pertinent Statutory Performance Indicators and this does not replace the existing statutory returns for performance information.

## **HUMAN RESOURCES IMPLICATIONS**

13. The Performance Scorecard has no direct impact on human resources.

## **EQUALITY IMPACT IMPLICATIONS**

- 14 The Performance Scorecard complements the Equality Impact Assessment by ensuring that any issues arising are adequately prioritised, managed and either eliminated or mitigated.

## **FINANCIAL IMPLICATIONS**

- 15 The Performance Scorecard facilitates the existing scrutiny arrangements to manage, prioritise, and review the budget provided by East Ayrshire Council and South Ayrshire Council to the Ayrshire Roads Alliance.

## **RISK IMPLICATIONS**

16. The Performance Scorecard assists in the prioritisation of risks that need to be mitigated by the Ayrshire Roads Alliance in order to reduce the overall risk to either Council and to comply with the Community Plan/Council Plan in both partner bodies.

## **TRANSFORMATION STRATEGY**

- 17 This Report aligns with the following design principle stated in the “Transformation Strategy 2017-2022”.
- “Maximum value for our communities”, by ensuring the various elements of the Ayrshire Roads Alliance improves transport provision throughout East Ayrshire.
